Introducing
Catch On Group's

**Clinical
Commissioners
Compendium**

Be part of the new
commercial marketplace.

Be part of the new commercial marketplace.

As a Department of Health Approved organisation, **Catch On Group** has been providing change management and clinical commissioning support since 1998.

The radical reform agenda means that GP clinical commissioners will be leading the management of NHS resources as 'Consortia' and, in these early stages, as 'Pathfinders'.

This development creates an opportunity for companies to identify and merchandise expertise Consortia will need to access.

Our trusted '**Clinical Commissioners Compendium**' will be a free, web based resource for these new clinical commissioners who will be looking to purchase commissioning support.

The compendium will be launched under 10 categories and the first edition will be available online from May 2011.

We are contacting you to ascertain your interest in placing your company profile in this new and exciting compendium. Please complete the attached form and fax it back to us in the next week so that your entry can be prioritised. We will launch with 5 companies in each category.

Costs for entry vary according to the level of detail you wish to place in your profile. The prices shown here are launch prices only.
